

Sébastien Chaulmontet, Owner

Sébastien's role at Albishorn involves envisioning the product and managing the brand. A lover of design and micromechanics, he enjoys merging the two in his work, often featuring original movements of his own design.

An inventor with ten patents to his name, Sébastien's contributions to the field are both innovative and influential. He is also the author of a book and several articles on the history of the chronograph, applying his historical knowledge to contemporary creations.

In addition to his work with Albishorn, Sébastien has served as the Head of Innovation and Marketing at Sellita Watch Co SA and Manufacture AMT since 2017.

Prior to that, he oversaw innovation at Manufacture La Joux-Perret SA from 2008 to 2017. He was in charge of the revival of the Arnold & Son and Angelus brands and was responsible for innovation and product development for these brands from 2010 to 2017.

Sébastien and Fabien

Fabien Collioud, Head of design

Fabien is responsible for product design and ensures the visual identity at Albishorn. With a deep understanding of technical constraints gained through his engineering studies and extensive experience in the watchmaking industry, Fabien applies his creativity to product development with exceptional skill.

Passionate about creating objects from a young age, Fabien discovered his interest in watchmaking during his Bachelor of Science in Product Design.

In addition to his work at Albishorn, Fabien has been handling movement design and creating marketing tools for Sellita Watch Co SA since 2017. He also serves as the lead designer at Atilas Design Studio.

Previously, Fabien worked as a designer for Manufacture La Joux-Perret SA from 2012 to 2017. In this role, he developed the aesthetics for high-end mechanical movements and designed watches, including numerous models for the Arnold & Son brand. He was also instrumental in the revival of the Angelus brand, where he established the aesthetic codes and served as chief designer until 2017.
